KRISHI SAMRIDHI MELA : 2023-24

The 4th Krishi Samridhi Mela cum National Seminar on the topic "Integrated Farming System towards Food Security and Sustainable Agriculture" is going to be held from 12th to 14th January, 2024. The Krishi Mela cum Seminar will be organized with a view to focusing modern technology in agriculture including horticulture, animal resources, fishery, sericulture, medicinal plants, ayurveda and other allied disciplines. The Krishi Mela will deal with modern concept in agriculture, organic farming, hi-tech horticulture system (including value added products), farm implements, handicrafts', etc. Apart from lectures by specialists of relevant subjects on given topics, there will be active interaction session between experts and participants so as to percolate the knowledge at the grass root level. Needless to mention, all these will have direct impact on Integrated Farming System and Sustainable Agriculture.

FELICITATION AND HONOURS

A display of agriculture and horticultural commodities in different categories will be organized and the most successful farmers/growers will be felicitated and awarded for providing encouragement to them. The excellently displaying stalls will also be awarded basing on the judgment of the evaluation committee.

A large section of farmers, scientists, representatives of agro-based companies', policy makers and planners are likely to participate in this Mela cum Seminar.

THE HISTORY OF RAMAKRISHNA MISSION ASHRAMA (RKMA) SARGACHI

The Ramakrishna Mission Ashrama, Sargachi, the 1st branch centre of Ramakrishna Math and Mission, Belur, was established in 1897 by Revered Swami Akhandanandaji Maharaj, a direct disciple of Sri Sri Ramakrishna, for providing education and uplifting the poor and downtrodden people of neighboring villages; keeping in mind the great sermon of Swami Vivekananda i.e. "Service to man is service to God". With that humble beginning, this Ashrama has flourished now with diversified activities like orphanage home, primary and secondary schools, relief centre, health centre, mobile health clinic, farming and several other philanthropic works. During last 10 years, special attention has been extended to agriculture and allied farm activities for livelihood development and income augmentation of the rural people. The most awaited recognition in the field of agriculture has been received from Indian Council of Agriculture Research with the establishment of Dhaanyaganga Krishi Vigyan Kendra under the aegis of Ramakrishna Mission Vivekananda Educational and Research Institute, Belur, Howrah in the year 2018 at RKMA Sargachhi.

NATIONAL SEMINAR ON INTEGRATED FARMING SYSTEM

Integrated Farming System (IFS) is a holistic approach that introduces a change in the farming technique for maximum production in the cropping pattern and takes care of optimal utilization of resources. It is judicious integration of agricultural enterprises like crop production, poultry, and dairy, fishery, sericulture and post harvest technologies. It is a whole farm management system which aims at delivering better and sustainable agriculture. It is a system where high quality organic food, feed, fibre and renewable energy are produced by using resources such as soil, water, air and nature as well as regulating factors to farm sustainability in eco-friendly manner. It preserves and enhances soil fertility, maintains and improves environment and adherence to ethical and social criteria as indispensable basic element.
